

Science
7th Grade
Mrs. Levinson
Week of April 20-24 2020

Answer the journal question each morning in your notebook or Google docs.

Chapter 11- Introduction to Atoms

Monday - April 20

Standardized test preparation p.330 Passage 1 Questions #1-3, Passage 2 Questions #1-3, Interpreting Graphics Questions #1-3

Tuesday - April 21

Model Making Lab – p. 326 “Made to Order”. Do procedure. If you don’t have the balls, you can use marshmallows. If you don’t have supplies, you can just draw it.

Wednesday - April 22

Model Making Lab, p. 327 Analyze the results and draw conclusions. Take a picture of the data collection table and your model and email it to me. This is a lab grade. If you don’t have supplies, you have to draw what you would have made and email that to me.

Thursday - April 23

Study the Periodic Table. It is on page 338. Please notice the atomic number for each element. Are they in a certain order? Read all the elements out loud.

Friday - April 24

Take the chapter test.

Send items to me as you do them. By Friday at 3pm, everything should be in. Whatever you prefer. Good luck with the lab.
