

Science  
7th Grade  
Mrs. Levinson  
Week of April 27-May 1, 2020

Answer the journal question each morning in your notebook or Google docs.

## ***Chapter - 12 The Periodic Table***

### **Monday - April 27**

Get your journals together in one place and be ready to email them to me tomorrow. There must be a date and 2 sentences with capital letters and periods. The first journal was posted on 3/30/20. The last journal will be today's, 4/27/20. Please do not send these to me as all separate documents. They must come to me in one email. Thank you.

### **Tuesday - April 28**

Journals - These are due today. There must be a date and 2 sentences with capital letters and periods. The first journal was posted on 3/30/20. The last journal was yesterday 4/27/20. For full credit these must be emailed me before midnight 4/28/20. Late submissions will lose points. There will be no journal today. They will resume again tomorrow.

### **Wednesday - April 29**

Read section 1 - "Arranging the Elements". It is page 336-343. Do direct reading that goes along with it. This is a very long section. Split it between today and tomorrow.

### **Thursday - April 30**

Complete reading section 1 and the directed reading.

### **Friday - May 1**

Answer question 1-8 on page 343. Write the answers and take a picture and email me or type answers and email me. You do not have to write the question but label what you are sending me.

On Friday - Due:

1. Directed reading from sections 1
2. Section review from section 1
3. Journals should be submitted on Tuesday.
