

This Sunday, May 10<sup>th</sup> is Mother's Day. It is the perfect time to let your mom know how much you love her. Since many of us are not going to the stores I have decided instead of an Art project you can make a card or cube for your mom.

If you would like to make a card, I have gathered a number of sayings that need a picture to go with them. Choose a saying (or make your own saying) and decide how to fold your card. (All information is listed below.) Write the saying and draw the picture on the front of the card. On the inside write your mom a special message. You can also decorate the inside with hearts and flowers. Use any type of paper you would like and use markers, crayons or colored pencils. Have fun making your mom a beautiful card.

A second option is to print the cube template at the end of this project. Draw in some squares different things (hearts, flowers, her favorite food) and write in some squares special messages. Use markers or colored pencils. Cut the cube out and glue together.

Wish your mom a Happy Mother's Day for me.

God Bless, Mrs. Peterson
