Ongoing Journal Activity:

Weather Observation: In a journal (or paper in a folder) draw a small symbol of the weather you see while looking out the window. Is it sunny, windy, cloudy, rainy?

- For the new month of May, if possible, print out or draw a calendar with boxes and have your child draw the weather symbol in the box for each day! This will teach numbers and counting as well. *I love the work you have been doing with this activity! Even simply talking about the weather each day is awesome!
- Let's add the days of the week into our morning routine. YouTube: Days of the Week Song/ Kids Songs/SuperSimpleSongs , Starfall calendar activity, or YouTube: Days of the Week / Singing Walrus
