

PreK 3 Suggested Activities for Week of May 4th

Word of the Week- **splatter**

youtube: SesameStreet Word on the street "splatter" (Kristen Bell)

- Suggested Arts-n-Craft Activity: In class we used to do a painting project that showcased the word...*splatter!* Line the table with newspaper, then use watercolor paint, plain paper, paintbrush, and *a straw*. The child can make a dot on the paper with watercolor using a paintbrush (make sure the dot is *raised up* on the paper) . Then the parent or child can blow air using the straw towards the dot..this creates the *splatter* effect! This is a suggested 99 second clip on **youtube** demonstrating the idea : [Splatter Painting with Straws Amber Heigl](#)

Ongoing Journal Activity:

- Weather Observation: In a journal (or paper in a folder) draw a small symbol of the weather you see while looking out the window. Is it sunny, windy, cloudy, rainy?

Youtube: *Supersimplesongs - How's the Weather?*

For the new month of May, if possible, print out or draw a calendar with boxes and have your child draw the weather symbol in the box for each day! This will teach numbers and counting as well.

Practice **counting 12 objects**. Throwback Sesame Street Song! Youtube **SesameStreet: Ladybugs' Picnic** (Ms Enrique remembers this song from when she was little! lol) Practice the song, we can try to sing it together on Zoom.

Can you count 12 eggs with mom or dad? If you eat 2 eggs for breakfast...how many do you have left? Draw 12 eggs..cross out 2...I'd love to see your answer!
